

Saskatchewan Roughrider music: I am working on a history and possible compilation of music associated with the Roughriders over the years and am looking for any songs that may exist. I also want to gather any memories, anecdotes, inspirations, etc. related to the writing, recording, or performing of Rider music from the Saskatchewan music community that may be interesting to Rider fans wanting to know more about their 'Green' music. Please view the list of songs I have sourced to date, to see if you can help me track down source recordings or suggest ones that I've missed. I would appreciate receiving any replies prior to January 31, 2009. Thanks, everyone, for your time and consideration in this matter! Alvin Murray, amurray000@sasktel.net.

The following list is what I have identified to date. If you know of other "Rider" music that exists, please contact me with the details and whether or not a master (or first generation) recording exists. Also, please note that if you have access to sources of the ones noted "AUDIO SOURCE REQUIRED" below, I would like to negotiate a copy for my own personal use, and possibly negotiate licensing for a compilation CD to be released in conjunction with the Riders' Centennial celebrations in 2010.

Wherever possible, I wish to promote the artists who are responsible for this music, so if you are responsible for any Rider-inspired music, I would also appreciate knowing where I can direct any inquiries I receive regarding your other musical work.

1. 800 LBS of West Country Rock LP – Tim Roth, Clyde Brock, Nolan Bailey (**MASTER AUDIO SOURCE REQUIRED**)
